DATA PRODUCT MANAGER · AI & ANALYTICS LEADERSHIP

ashutosh.jha3006@gmail.com · +91 83758 55754 · Gurugram, India · linkedin.com/in/shutupashu · bit.ly/Dataphilosophy

PROFESSIONAL SUMMARY

Data Product Manager with 12+ years driving enterprise-scale analytics platforms and AI-powered products. Currently leading a 25-person cross-functional team at Easyrewardz, building GenAI-powered CRM intelligence for 100M+ customers across India's top retail, BFSI, and QSR brands. Deep roots in ETL, data warehousing, and SQL — combined with a product leader's command of roadmaps, P&L, and client outcomes. Shipped voice AI agents, RAG pipelines, LLM-powered personalisation, and award-winning analytics into production.

AI / LLM	GenAI · Claude API · RAG pipelines · Voice AI (Deepgram, ElevenLabs, Exotel)
Databases	PostgreSQL · Oracle · MongoDB · Cassandra · MSSQL · BigQuery · ClickHouse

WORK EXPERIENCE

Easyrewardz Software Services · Gurugram, IN Oct 2017 – Present
Leading CRM & Customer Loyalty platform · 200+ enterprise clients · Retail, BFSI, QSR verticals

AVP – Data Engineering & Product Management Sep 2023 – Present

- Lead 25-person cross-functional team (Data Engineers, AI Engineers, PMs, Analysts); squad-based model cut release cycles from 6 weeks to 2 weeks.
- Architecting production voice AI agent (Exotel + Deepgram + Claude API + ElevenLabs) targeting 70%+ automation of inbound call centre volume.
- Built RAG pipelines and LLM-powered insight layers on CDP stack — reduced analyst query-to-insight time by 60%.
- Defined GenAI roadmap: 3 features in production, 4 in pipeline (hyper-personalisation, autonomous campaigns, conversational analytics).
- Manages P&L and client success for 30+ enterprise accounts; accountable for ARR retention and expansion.

Senior Manager – Data Products Aug 2022 – Sep 2023

- Led design and launch of Atlantis — recognised as Best Data Analytics Solution, Financial Express FuTech Awards 2024; deployed across 100+ enterprise clients.
- Redesigned portfolio reporting stack — cut report production time by 75%; shipped predictive layer (churn, next-best-action, CLV) into Atlantis.
- Built data quality framework — reduced client-reported incidents by 40%; partnered on 3 upsell closures totalling ₹12 Cr incremental ARR.

Manager – Data Products

Apr 2021 – Aug 2022

- Migrated core data platform batch → near-real-time: customer profile refresh latency from 24 hrs to <30 min for 50M+ profiles.
- Introduced A/B testing infrastructure for campaign personalisation — lifted average campaign conversion by 18%; defined OKR framework still in use today.

Lead Data & Product · Associate Data Science

Oct 2017 – Mar 2021

- Built data infra for Clix (3B SMS · 10B emails/yr); architected CDP for Bata across 8 countries and Phoenix Mall (10M profiles).
- Deployed SegCon real-time segmentation tool — enabled ₹250M/month in personalised campaign revenue across 150M+ customer base.
- Established BI platforms for PVR, SRL Healthcare, IIFL, Bajaj Finance; served as Data Architect for feedback platform Collecta.

Data Analyst – Data Products · Home Credit India · Gurugram, IN

Jul 2015 – Oct 2017

- Built statistical models and pipelines for credit risk and collections analytics — used daily by 200+ ops staff; cut campaign cost-per-contact by 22%.
- Managed PII data for 5M+ customers; maintained regulatory reporting accuracy across 1M+ active loan accounts via SQL, Python, Elastic Stack.
- Created and maintained 100+ reports across 9 operational departments; designed more efficient data collection procedures that reduced processing time significantly.
- Collaborated with data architects and business stakeholders to define data requirements and deliver analytical solutions across credit risk, collections, and operations teams.

Business & Data Analyst · Droisys Inc. · Gurugram, IN

Feb 2015 – Jul 2015

- Built 100+ Tableau visualisations for pharma clients; developed complex SQL for ETL validation, variance analysis, and forecast reporting.
- Managed three extensive databases storing customer and behavioural data for major pharmaceutical clients; performed integration and user acceptance testing for 20+ new feature deployments monthly.

Data & Technology Analyst · Allura Online Pvt Ltd. (qurly.in) · Gurugram, IN

Jul 2012 – Feb 2015

- Optimised database for 1M+ customer base; managed B2B campaigns generating ₹5M revenue; prepared data reports across 5 departments.

EDUCATION

PG Diploma in Data Science (MBA – Business Analytics & Data Science) · IMT Ghaziabad

2019 – 2021

B.Tech – Computer Science & Engineering · Rajasthan Technical University / CET

2008 – 2012
